

The World's Easiest-To-Service Air Cleaner! Small, Durable and Corrosion-Free

Applications

- vertical, or even at an angle (as long Installation can be horizontal, two units cleaner - double throughput by using Provides up to 346 cfm airflow per air
- as VacuatorTM Valve points down)
 4", 5", 6", 7", 8", 9" & 10" diameter sizes

MEDIUM DUST

Temperature tolerance: 180°F / 83°C sustained

temp component.) muffler, exhaust pipes, or other high-(Do not install next to turbocharger,

Ideal for

- Compressors & generator sets
- Construction & in-plant vehicles
- On/Off-Highway vehicles
- Marine & offshore equipment

Air Cleaner Features

- Usually done in 5 minutes or less! Easy to service! No tools needed!
- Durable plastic housing corrosionfree and lightweight
- primary filter removes up to 85% of tangential pre-cleaner ahead of Two-stage air filtration! Built-in,
- your application Choose 90° or straight outlet to fit incoming dust
- retain dust cup/cover Easy to fasten latches (no bolts!)
- specific application)
 Four models have twist-off cover can be incrementally rotated to suit air cleaner mounting (the dust cup permits either vertical or horizontal 45° Vacuator™ Valve orientation
- design
- in-field filter changeouts Safety filter protects engine during
- options) Accessories section for indicator service indicator (see the Already tapped to accept filter

Filter Features

- centering and self-aligning! easy service – the filter is self-**Exclusive Radial Seal Sealing** Technology means reliability and
- reducing components, adding reliability and lowering cost encase the filter media and liners One piece, molded urethane endcaps

Mounting Bands **Designed Exclusively for** the TPG Series

Polymer Mounting Band

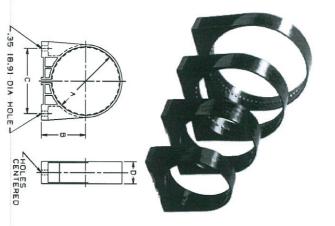

circumference which fit exactly into notches on the FPG housing. The band has tabs on the inside hold the housing in position. mounting band will securely The one-piece, high tech polymer

vibration applications. fixed, stable mounting – even in high is bolted to a support, providing a cleaner when the base of the band The band tightens around the air

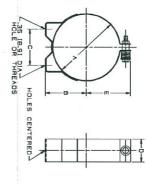

economical. lightweight, easy to install, and completely non-corrosive, Donaldson polymer bands are

Metal Mounting Band

temperature extremes. maintain a constant hold on the spring-loaded bolt at the top to The metal mounting band has a housing throughout high and low

Application Note:

To accommodate even hard-to-fit applications, polymer bands allow the air cleaner housings to be rotated and positioned at various increments, depending upon the size:

Housing Diameter 4.80" (122mm) 5.75" (146mm) 6.74" (171mm)	Increment 11° 10° 7.5°
6.74" (171mm)	7.5°
7.19" (183mm)	70
8.35" (212mm)	5,

mounting bands or straps with FPG air cleaners. Use of an unapproved mounting band voids warranty. WARNING: Do not use any other

FPG Mounting Bands (Order one band per FPG air cleaner)

When spec'ing an Air Cleaner...

Determine the airflow requirements of your engine, then find the corresponding cfm airflow in the table at right. The restriction numbers (shown in inches of water) indicate the approximate initial restriction of each model air cleaner at that cfm. If there are two air cleaner models that fit your parameters, choosing the one with the lowest restriction will provide longest filter service life. When calculating total initial restriction of the entire air intake system, include the restriction caused by ducting, elbows, pre-cleaners, etc.

Initial Airflow Restriction

Application Notes

- 1) Safety filters: All FPG models can accept safety filters. This table shows which air cleaner models are shipped with a safety filter installed. If you want to add a safety filter to an existing model that did not originally have one, order the safety filter listed in the Service Parts table on page 34.
- Mounting band specifications and ordering information are on next page.
- 3) Inlet Hoods: A plastic inlet stack up to 18" (457mm) tall may be added, supporting a plastic inlet hood. See the Accessories section for information on optional inlet hoods and filter service indicators.

 Warning: Do not add a pre-cleaner or any intake accessory other than a lightweight inlet hood. Use of unapproved intake accessories will void your Donaldson warranty.
- Service Indicators. See the Accessories section for information on filter service indicators.
