

Donaldson Delivers
**Filters and Service
That Go the Distance**

Road Ready Performance

Durable, rugged and built for the long haul, Donaldson replacement filters are manufactured to the same quality standards as the original.

Donaldson delivers the most comprehensive line of filtration solutions for your trucks – and fleets.

Downtime means lost revenue. To keep your trucks on the road, you need **filters** that deliver superior performance – and a **reliable supplier** that offers complete coverage for your entire truck.

Filters are an important part of any effective truck maintenance program. They need to withstand the harsh demands of the road – the starts, the stops, the idling and the strain of a heavy load. Donaldson filters deliver the right combination of quality and value that help get your trucks to their next scheduled service without interruption.

Donaldson Delivers.

Innovative filtration solutions for engines, equipment and the people who use them.

- **Industry-leading technology** – uncompromising product quality
- **OE Grade** – Donaldson is the first-fit choice of equipment manufacturers around the world
- **Broad Product Coverage** – air, lube, fuel, coolant and hydraulic filters and systems, plus exhaust, accessories and more
- **Consistent Product Availability** – the filters you need, when you need them
- **Specialized Fleet Services** – designed specifically for the transportation industry
- **Comprehensive Customer Service** – experienced and knowledgeable sales and technical support teams
- **Warranty** – industry leading coverage
- **Far Reaching Field Support** – Donaldson Representatives are nearby and ready to assist

Complete Coverage from Powertrain to Exhaust

Filtration Products for On-Road Trucking Applications

Fuel Filtration

Donaldson filters help prevent premature pump wear and injector damage by delivering clean fuel to your engine. They're a better way to filter fuel.

Donaldson Blue™ fuel filters for Cummins® ISX engines deliver the cleanest fuel to your injectors, pumps and engines.

Cummins® engines Twist&Drain™ filters with integrated WIF sensors simplify the complicated task of removing water.

Cummins® is a registered trademark of Cummins Inc. Racor® is a registered trademark of Parker Hannifin Corporation.

Racor® fuel systems Twist&Drain™ filters with threaded sensor ports work with existing WIF sensors.

Fuel Filter Kits include Twist&Drain™ filters with standard valve, water collection bowl and alternative valve with WIF sensor or threaded port.

Lube Filtration

Donaldson lube filters keep oil clean by capturing contaminants that can cause engine damage.

Donaldson BLUE™

Lube filters capture metals, soot and contaminants to maintain higher cleanliness standards.

Coolant Filtration

Donaldson coolant filters remove contaminants and maintain cooling system balance.

Coolant filters help keep hot-running engines cool and reduce downtime.

Donaldson BLUE™

Air Filtration

Today's high performance engines and tougher emissions standards demand higher-performing air intake systems.

Air cleaners

Since 1915, Donaldson has pioneered the development of nearly every major advancement in heavy-duty engine air filtration. Nothing else performs like our industry-leading air cleaners.

Replacement filters deliver better protection with Donaldson Blue™ filters or PowerCore® filtration technology.

Replacement filters for Cummins Fleetguard OptiAir™ Air Cleaners use high-efficiency media, vibration-resistant RadialSeal™ design and rigid structural support to deliver complete engine protection.

OptiAir™ is a trademark of Cummins Filtration, Inc.

Full line of air intake accessories includes hoses, clamps, indicators and Vacuator™ Valves – for new and retrofit applications – in a variety of styles, sizes, materials and performance specifications.

Filtration Products for On-Road Trucking Applications

Hydraulic and Transmission Filtration

Performance under **any** pressure.

Low Pressure are rated for working pressures up to 350 psi, with in-tank and in-line configurations available.

Medium Pressure Duramax® filters have become the industry standard for operating pressures up to 2000 psi.

T.R.A.P.™ Breathers collect and expel moisture from hydraulic and lube reservoirs – they also prevent particulate from entering.

Clean Diesel Filter Kits

Easy to install on any fuel dispenser, ready to filter out the finest contaminants before they enter your equipment's fuel system.

Basic Kit includes single head, high efficiency diesel filter and pressure gauge.

High Capacity Kit includes dual head, high efficiency diesel filters (2), pressure gauge and flange adaptors.

Clean & Dry Kit includes single head (2), high efficiency diesel filter, water absorbing filter, pressure gauge (2) and T.R.A.P. breather.

Mufflers and Exhaust Accessories

A complete line of mufflers, clamps and exhaust accessories.

Mufflers for medium- and heavy-duty diesel powered equipment.

Clamps and accessories reduce exhaust leaks and noise.

Donaldson Blue™ Filters

With pioneering technology – **Synteq™** and **Synteq XP™** media for liquid filters and **Ultra-Web®** media for air filters – **Donaldson Blue** filters trap higher volumes of fine contaminant while maintaining flow, protecting engines, extending service intervals and reducing downtime.

Donaldson Blue Fuel filters with Synteq XP™ nanofiber media for Cummins® ISX 15.0L and 11.9L engines deliver the best capture and retention of engine damaging contaminants and the best protection for injectors.

Donaldson Blue Lube filters with Synteq™ media deliver extended service intervals, improved lubricant flow, improved cold start performance and a higher level of protection to prolong engine and equipment life.

Donaldson Blue Coolant filters allow you to extend filter life while maintaining coolant condition. Options with additive replenishment technology allow you to extend your maintenance intervals up to once a year or 150,000 miles.

Air filters with Ultra-Web® Nanofiber media allow you to go *Twice the Distance* between service. Durable, robust and designed to perform in extreme temperature and humidity conditions; high capacity/high efficiency.
